

RAC Canada Workshop

NCRAF sponsors study group sessions for the Regulatory Affairs Certification (RAC) examinations for the US, Canadian, and European Union regulations, all of which are given annually by the Regulatory Affairs Professional Society (RAPS). Information on the RAPS certification exams can be found at the RAPS Web site.

NCRAF's training is designed to help NCRAF members prepare for the exams through lectures on regulatory policies and procedures, and by encouraging interactions amongst the study group participants.

There will be no RAC Canada in 2019. □
We apologize for any inconvenience.
